Dimensions: 61.5"H x 23.25"W x 26"D  
Warranty: 1 year [Extended Warranty Available from  
Serval]

The Dometic Model RGE-400 is one of the most efficient gas refrigerators available. It runs on propane and needs no other power whatsoever. Dometic sells this refrigerator under the Serval name (They bought the rights to the old name, but the refrigerator is quite different.) The RGE-400 is manufactured in Sweden and imported to the USA. It is available in white and bisque.

We sell over 70 Dometics each year. We get many thank you notes on this unit because it is lighter and more compact than the old Servels (pre-1963) and it uses about one quarter the gas. It will cool in the hottest of climates. The freezer section has a separate door and is a true deep freezer even in the hottest summer weather. You can freeze and keep vegetables from the garden or fish or meat from the woods or the supermarket. Since gas freezers are expensive, most customers who need more freezer space - just buy a second Dometic.

The Dometic requires no venting. Its small efficient flame is an incredible improvement over the old Servels. All controls are on the front of the unit as they should be.

The Dometic is shipped freight pre-paid to you from Ohio (about \$125-\$150 in New England). Once in a while the shipping will be an additional \$25 in the case where the long distance freight company has to transfer the refrigerator to a local freight company. Delivery usually takes about a week to 10 days from time of order. The RGE-400 is almost always in stock, but if you have a critical delivery time call well in advance of desired delivery date especially in the Spring.

New England Solar Electric, Inc.

### Falks Gas Lamp

909-002	Single for Wall Mount	\$99
909-004	Double Ceiling Fixture (Includes Two Lamps)	\$199
909-005	Double Wall Fixture (Includes Two Lamps)	\$179
909-003	Replacement Mantles, each	\$8
909-011	Replacement Glass Globes	\$15

We would rather see you use a PV system and efficient DC or AC lighting. However, we still have many cus-

tomers who need gas lights for a backup lighting system. Falks gas lamps are made in Canada and are quite a refinement over the Humphrey lamps. They have gold trim with a white and clear globe. The lamp includes a reflector (not shown in the picture below). It can be plumbed both outside and inside the wall. All needed gas pipe adapters are included. The lamp extends 10" from the wall, is 6" wide and 7 1/2" high.

### Humphrey Gas Light

909-001	Specify Color. See Below	\$79
	6 or more, each	\$69
909-009	Chrome or Brass	\$109
909-003	Replacement Mantles, each	\$8
909-010	Opalite Pendant	\$49
	Hang 1 to 3 Lights from Ceiling	
909-011	Replacement Glass Globes	\$15

The original gas lamp is now back. The Humphrey has been acquired by yet another company and are available once again. We have Pebble Gray, Almond and Walnut in stock. Other colors are available.
